Public Information Summary
Egypt Loan Guaranty Facility

Host Country	Egypt
Names of Guaranteed Parties	Up to six local private financial institutions to be determined ("Guaranteed Lenders").
Project Description	An unfunded guaranty framework that will partially guaranty loans to micro-, small-, and medium-sized enterprises ("MSMEs") in Egypt made by the Guaranteed Lenders recommended by Global Communities (the "Coordinating Agent") pursuant to guaranty facility agreements among DFC, the Coordinating Agent, and each Guaranteed Lender.
Proposed DFC Guaranty	*Amount*: $100,000,000 *Tenor*: 6 years / 10 years (Initial four-year availability period plus two-year repayment tail, with option to extend the guaranty availability period to eight years plus two-year repayment tail).
All-Source Funding Total	$127,500,000
Policy Review	
Developmental Objectives	This Facility will provide access to finance and technical assistance for MSMEs, including women-owned businesses and businesses in the underserved rural governorates of Upper Egypt. Technical assistance to Guaranteed Lenders will also be offered on topics such as alternative credit analysis, non-performing loan management, and gender-lens training. The projected impact through issuance of MSME loans will be assessed as part of individual reviews of each financial institution in Egypt receiving coverage under the Facility.
Environment and Social Assessment	Establishment of a local currency guaranty facility is screened as a Category D project for the purpose of environmental and social assessment. In accordance with DFC's Environmental and Social Policy each downstream loan guaranty originated under the facility will be screened and subject to the full scope of DFC's environment and social assessment process, including public disclosure of the borrower's environmental and social impact assessment for Category A projects, conditionality and monitoring, as is warranted by the nature and scope of the downstream borrowers.
