

Public Information Summary

Host Countries	Worldwide
Name of Borrower	Triple Jump Financial Inclusion Resilience Fund B.V. (the “Fund”)
Project Description	Senior loan facility to the Fund to provide subordinated loans to financial intermediaries (“FIs”) that have large MSME portfolios (“FIs”) in Africa, Asia, Eastern Europe, Middle East and Latin America (the “Project”).
Proposed DFC Loan/Guaranty	\$48,000,000
All-Source Funding Total	\$71,682,690
Policy Review	
Developmental Objectives	The Fund is anticipated to have a highly developmental impact through subordinate debt offerings to FIs impacted by the COVID-19 pandemic and operating primarily in low- and lower-middle income countries. The economic and public health measures undertaken to counter the COVID-19 pandemic have created a challenging economic environment for FIs to raise capital as lockdowns decreased deposits, moratoria delayed loan repayments, and private capital fled the developing world for safe havens. The Fund’s innovative subordinated loan offering to FIs will provide much needed liquidity and help attract additional financing to expand their capital base. The Fund through its investments in FIs anticipates supporting 100,000 MSMEs, the majority of which will be women-owned.
Environment and Social Assessment	The Project has been reviewed against the DFC’s 2020 Environmental and Social Policies and Procedures manual (“ESPP”) and has been determined to be categorically eligible. DFC direct investments into Investment Funds to support their investments into FIs are screened as a Category D for environmental and social assessment. These downstream investments are expected to result in minimal adverse environmental and social impacts. Therefore, all those downstream investments have been pre-screened as Category D and further review and consent is not required for these investments. To ensure that the Fund’s investments are consistent with the DFC’s statutory and policy requirements, the DFC loan will be subject to conditions regarding the use of proceeds. The primary environmental and social issues identified in this transaction relate to the need for an Environmental and Social Policy (“ESP”) that meets the 2012 IFC Performance Standards. Under the DFC’s ESPP, the Fund is required to comply with applicable local and national laws and regulations related to environmental and

	<p>social performance and applicable provisions of the 2012 International Finance Corporation’s Performance Standard (“PS”) 1 and 2. A desk-review-based due diligence assessment indicates that because the Project will use DFC support for supporting FI’s, significant adverse impacts concerning community health and safety, biodiversity, land acquisition and resettlement, indigenous peoples, and cultural heritage are not anticipated; therefore, PS 3, 4, 5, 6, 7, and 8 are not triggered at this time.</p> <p>The Fund has adequate environmental and social impact monitoring and reporting procedures but will be required to update its internal grievance process prior to receipt of DFC support to align with the DFC’s ESPP.</p>
